MESOTECH

Mesotech, is an Italian pharmaceutical laboratory with more than 20 years of experience in the research, development, innovation, manufacturing and distribution of sterile Medical Device, aesthetic and skin care solutions for beauty and medical institutes.

Development of new products from original ideas to deep research. Original formulations where unique ingredients are selected to normalize and correct skin disorders and imbalances.

We are committed to providing our customers with outstanding products meeting the highest quality standards.

Mesotech experience is now extended to provide New Natural Solutions for targeted therapeutic applications.

Innovative technologies have been developed by Mesotech to improve the performance of our ingredients for specific applications.

Providing quality products to our customers is part of our daily work and is supported by an efficient and dynamic quality system committed to spreading a culture of quality as an integral part of the manufacturing process.

Lab

Much more than 300 sqm with innovative compounding, filling and packaging lines producing Cosmetics (powder, liquid and paste) and Medical Device.

Contract Manufacturing service is a ours core business. Contact us to develop professional solution with unique and effective formula: sterile and cosmetic.

Procedure for production

All raw materials are selected by us to meet the characters of medical devices. The production process is controlled according to ISO9001, ISO13485 quality systems. After production, all products are tested and inspected including packaging, sterilization etc.

Mesotech guarantees the quality of all of its references. Each one is submitted to several control tests before, during and after production to ensure that all formulations always match their specification, on appearance, quality and performances.

ANTI-AGING TREATMENTS WITH MESOTECH® MESO-COCKTAILS

Mesotherapy - a medical treatment consisting of small injections under the skin 2-13 mm depth depending on the product and the treated area.

- Anesthesia before treatment is recommended.
- Performed manually or with Leadergun.

MESOTECH® Leadergun

mesotech
beauty's results
Scandinavia & Germany

ANTI-AGING TREATMENTS WITH MESOTECH® MESO-COCKTAILS

DERMA THERAPY - a non medical treatment which is performed in a non-invasive manner using derma therapy equipment from Labina (pl-500, pl-1000, pl-2000). CAN ALSO BE USED WITH SKINPEN AND OTHER TYPES OF MICRO NEEDLING

Step 1 PEEL - peeling

* Biopeel is applied to the skin
12 hours before treatment -
your customer does it herself
at home

Step 3 MASK - Enhance antiaging effect and create calmness in the skin

Step 2 MESO-COCKTAIL- effective treatment

Step 4 Aftercare – Chelaskin * 1-2-3 days after. Treatment 2 times.

Chelator is based on lactoferrin, which is a protein with strong antibacterial activity due to both iron-binding properties (reduces bruises) and has inflammatory action

MESOTECH® MESO-COCKTAILS IS EFFECTIVE AGAINST:

- Lines on the face
- Lack of volume in the skin on the cheeks
- Lines on the neck and decoltee
- Smooth Dehydrated skin on face and hands
- All areas can be treated
- Pigment stains of all kinds
- Fat deposits on the face
- Double chin
- Hair Loss
- Stretch marks

Medical Mesotherapy:

- Reduction of scars
- Fat on the stomach, legs and arms
- Cellulitis

Face meso-lipo

Whitening

Stretch-Marks

Anti-age

Cellulite

Hair-Loss

MESOTECH® PRODUCTS ARE EFFECTIVE AGAINST:

- Scars (incl. Post surgery)
- Stretch marks
- Scars after Psoriasis
- Arrange after eczema
- Hyper pigmentation
- Dermatitis
- Wrinkles and lines
- Burns
- Acne Scars
- Scars after chickenpox
- Damaged skin after severe sunburn
- Loss of elasticity of the skin
- Dry skin
- Early aging

ANTI-AGING EFFECT WITH MESOTECH® REOIL

Natural source Rosa Mosqueta Oil, Argan Oil, Inca Inchi Wo and Chamomilla

SOFTNESS SENSATION + 94%	SUPPLENESS SENSATION + 66%	RECONSTRUCTED EPIDERMIS + 19%
-----------------------------	-------------------------------	----------------------------------

ONLY NATURAL SUBSTANCES AGAINST SKIN AGING:

- ✓ Rose Moschata Chin OIL
- ✓ Argan oil
- ✓ Inca Inchi Wo OIL
- ✓ Chamomile flower extract
- ✓ Vitamin E

MESOTECH® BIOAGE

EFFECT: Reconstruct the connective tissue. The DNA (from plant substances) has a rapid antiaging effect on the skin as it modifies the cells in the epidermis's basic layer

INGREDIENTS: Sodium DNA: 3% - Vit. E.

TREATMENT: 1 x week for 8 weeks; 1 Bioage ampoule: 1 ml sterile water

mesotech[®]
beauty's results
Scandinavia & Germany

MESOTECH® BIOAGE

Day 1: 1 x Bioage

After 7 days: 1 x Elasthase

After 7 days: 1 x Bioage

After 7 days: 1 x Elasthase

After 7 days: 1 Hydralift directly in problem areas

BIOAGE: The sodium DNA is a non irritating substance and is a strong superficial moisturizer.

The DNA has a trophic action on the skin and seems to modify the cellules of the basal layer of the epiderm. It has been observed that DNA has the power to reconstruct the connective tissue by stimulating the scarring processes.

ELASTHASE: with its special formula is a premium grade alternative to Botox. Its formula safely and effectively reduces the appearance of wrinkles and fine lines from all areas of the skin, body and face.
The DMAE, Elastin and Methylsilanol Mannuronate in Elasthase have clinically shown to:

- Decrease wrinkle volume
- Decrease wrinkle density
- Decrease appearance of wrinkles
- Decrease appearance of stretch-marks
- Increase skin firmness
- Increase skin thickness
- Increase collagen production

MESOTECH® BIOACT

Result after 2 treatments with Bioact at 10 days intervals

Before

Before

Before

MESOTECH® BIOACT

Result after 5 treatments:

1 day: 1 x Bioact

After 10 days: 1 x Bioact

After 10 days : 1 x Bioact

After 10 days : 1 x Bioact

After 10 days: Hydralift

Result after 5 treatments:

1 day: 1 x Botophase and 1 x Bioact

After 10 days : 1 x Bioact

After 10 days: 1 x Bioact

After 10 days : 1 x Bioact and 1 x Botophase

After 10 days: Hydralift

Result after the first treatment:

1 x Botophase and 1 x Bioact

MESOTECH® BIOACT

It improves stressed skin. It partially reduces smaller wrinkles. It improves the dull, irregular skin of some patients who are smokers or who have not taken care of their skin.

It is a comprehensive treatment that helps obtain a good level of cellular hydration and good biochemical and biological architecture.

Thanks to the 1% hyaluronic acid that this product contains, it is also recommended for use as a small wrinkle refill, such as those around the eye area, which will improve within one or two sessions. In deeper wrinkles (expression, frown,...) positive results can be obtained with more sessions.

Bioact is not recommended for pregnant women or women with more serious skin problems like acne.

Conclusion

Bioact is an excellent technique to stimulate and revitalize the skin, enabling the treatment of wrinkled, tired, weakened and fragile skins, as well as sun-damaged or very dehydrated skin.

This treatment is not invasive and permits treating an extensive area of skin. Associated with other techniques, it will not just prevent the effects of ageing, but it will also treat them.

Bioact is comprised of top quality natural substances.

Results after 3 treatments:

Day 1: 1 x Botopase + Bioact

After 7 days: 1 x Bioact

After 7 days : 1 x Bioact

MESOTECH® CELLUPHASE Ultimate meso-cocktail for contouring the face

EFFECT: Decreases double chin by 80%. Strengthens and smoothens the skin. Improves microcirculation in the skin. Reduces fat deposits in the eyelids, under the eyes and cheeks

INGREDIENTS: Horse chestnut, strawberry flower, nicotine, trout nut shrub, caffeine, L-carnitine.

(L-carnitine is a vitamin-like substance that is necessary to transport fat into the combustion furnace of the cells).

TREATMENT:

1 x week for 6-8 weeks. 2 Basic solution ampoules: 1 ml activator

MESOTECH® CELLUPHASE TREATMENT AGAINST DOUBLE CHIN

Celluphase:

2 treatments at 10-day intervals + supplements.

Example: Immediately after microinjections

MESOTECH® CELLUPHASE TREATMENT AROUND THE EYES

Heavy eyelids:
1 x celluphase

Fat deposits under the eyes:
1 x biolift. After 7 days: 4 x celluphase (every 10 day)

Plasma treatment (performed before Celluphase) to achieve some lifting

MESOTECH® BIOLIFT

The most effective treatment for firming the skin

EFFECT: It improves stressed skin. It partially reduces smaller wrinkles. It improves the dull, irregular skin of some patients who are smokers or who have not taken care of their skin. The oval of the face is reformed. Stimulates the contraction of the muscular filaments of the skin with its tensor effect. It is compatible with the botulinic toxin. Improves the moisturizing of the skin. Captures free radicals and protects from external abrasions.

INGREDIENTS: Base Solution Ampoules Water, Sodium chloride, Ascorbic acid, Vitamin B1, Vitamin B2, Vitamin B6, Nicotinamide, Magnesium phosphate. Biolift also contains dimethylaminoethanol (DMAE), an active ingredient known to increase the firmness of the skin (Uhoda I. et al, Kiss Z. et al), and carnosine, a dipeptide derived from histidine, the anti-ageing activity of which has been widely published in the scientific literature .

TREATMENT: 1 x week for 6-8 weeks; 2 Basic solution ampoules: 1 ml activator.

mesotech[®]

MESOTECH® BIOLIFT

The most effective treatment for firming the skin

BIOLIFT is very effective for wounded skin, mature skin and impure skin. The formulation of BIOLIFT has been designed to attenuate the effects of ageing and to combat the consequences of early ageing.

Senescence of the fibroblasts causes a drop in the synthesis and maintenance of the ECM, resulting in the disorganization of the skin.

BIOLIFT slows down this process by providing the nutritional elements required for the optimal function and renewal of the fibroblasts.

RESULTS AFTER ONLY 3 TREATMENTS: 3 X BIOLIFT EVERY 7 DAYS

MESOTECH® HAIR SYSTEM

Hair system is a Meso-cocktail rich in active ingredients, vitamins, amino acids and minerals, formulated to restore effective micro-circulation of the scalp and revitalize hair follicles.

EFFECT: Stops hair loss and stimulates hair growth without side effects.

INGREDIENTS: Sav Palme (treats hair loss and reduces the amount of hormone dihydrotestosterone, but without side effect compared to classical Finasteride as impotence). Asian centella (plant extract that stimulates the synthesis of collagen). BIOTIN; nutrient taurine, animated acid cystine.

TREATMENT: 1 x 10 days for 10 weeks; 1 ampoule (5ml): 5ml sterile water.

mesotech®
beauty's results
Scandinavia & Germany

MESOTECH® HAIR SYSTEM

Creates dense and abundant hair

The results of Hair system (meso-cocktail and dietary supplements) stop the hair loss process and restore microcirculation

WHY DOES MESOTECH HAIR SYSTEM STOP THE HAIR LOSS PROCESS:

- ✓ The microcirculation is restored
- ✓ Talc production is adjusted
- ✓ It nourishes the upper part of the hair follicle
- ✓ It enhances the hair's cortex (inner layer, gives hair its elasticity)
- ✓ The restructure the outermost layer of the hair
- ✓ It reidentifies medulla (the marrow of the hair)
- ✓ Restoration of the hair's radiance

HS is a supplement that can help maintain the physiological structure of hair (biotin) and pigmentation (copper).

The extract of Ginkgo plays an antioxidant effect, while vitamin B9 and iodine contribute to the physiological energy metabolism.

MESOTECH® HYDRALIFT

Immediate firming of the face

EFFECT: Facial tightening from treatment day and at least for 14 days. Helps prevent and treat skin weakness. Effective against rans under the eyes and collars. Perfect treatment before festive events.

INGREDIENTS: Hyaluronic Acid 1% (a gel-like substance that fills the space between collagen and elastin fibers. The role of the hyaluronic acid in the skin is to provide a mechanism for transporting essential nutrients from the bloodstream to living skin cells, hydrating the skin by biting moisture and it acts as a lubricant against mechanical and chemical damage; protect skin against ultraviolet radiation due to its free radical cleansing properties) and DMAE 1% (stimulation of membrane receptors of fibroblasts and, therefore, boosting effect)

TREATMENT: 1 x week for 5 weeks; 1 hydralift ampoule: 2 ml sterile water

MESOTECH® HYDRALIFT

Immediate firming of the face

The mode of action of DMAE can consequently result a synergic combination of actions at different levels: tension of dermal non-muscle cells, cohesion and displacement of keratinocytes, hydration and elasticity of the corneal layer, better nutrition and skin defenses, antioxidation and skin uniformities.

THE LIFTING EFFECT can be seen immediately after the first session of **HYDRALIFT**, it attenuates and smoothest wrinkles fights flaccidity. firms and improves the skin's elasticity.

INDICATIONS

Anti-ageing mesotherapy product indicated for intense revitalization and hydration of tired or loose skin, treatment of wrinkles and reidentification of mature or slack skin.

LIFTING

- Flaccidity (face, breast, legs)
- Sagging skin
- Neck folds
- Wrinkles
- Skin hydration
- Wound healing

SIDE EFFECTS/CONTRAINDICATIONS

Do not use during pregnancy and lactation.

Result after 4 treatments with HYDRALIFT:

2 treatment noninvasive and 2 treatments invasive (12 days intervals)

MESOTECH® ELASTHASE

Effective lifting of the skin

DMAE, ELASTIN, ORGANIC SILICON TO RESTORE THE SKIN

EFFECT: Tightening of the skin on the neck and décolleté: reduces the length and depth of wrinkles, prevents wrinkles or stretch marks, increases skin's elasticity and stimulates collagen formation.

INGREDIENTS: DMAE (the most beneficial antioxidant that strengthens fibroblasts and thus the skin is tightened), Elastin (a protein that helps the skin to return to its original form) and Methylsilanol Mannuronate (Is an organic derivative of seaweed that binds moisture into the epidermis and therefore strengthens and strengthens the skin).

TREATMENT: 1 x 7-10 days for 8 weeks; 1 Elastase ampoule: 5 ml sterile water

MESOTECH® BOTOPHASE

Lifting effect without toxins

EFFECT: Anti-ageing product indicated for intense revitalization and hydration of tired or loose skin, treatment of wrinkles and reidentification of mature or slack skin.

LIFTING: Lifting, Flaccidity (face, breast, legs), Sagging skin, Neck folds, Wrinkles, Skin hydration.

INGREDIENCIES : Aqua, Retinol, Ascorbin syre, Pentapeptid-3, Acetyl-Hexapeptid-8, Acetyl-Octapeptid-3, Natrium hyaluronate, Avena –Sativa - Extract, Zink klorid, Copper Gluconate, Kobalt Gluconate, Arginine Aspartate, Valine, Pyridoxin, Thiamin HCL, Natrium chloride, Natrium hydroxide.

TREATMENT: 1 x month; 4-6 treatments; 1 botophase ampoule: 2 ml sterile water.

MESOTECH® BOTOPHASE

Lifting effect without toxins

Day 1: 1 x Botopase + Hydralift

After 10 Days: 1 x Biolift

After 10 Days: 1 x Biolift

After 10 Days: 1 x Botopase + Hydralift

Botopase is a restructuring and firming facial treatment designed to act from the deep skin stratum in order to recover the good appearance of the skin. The unique combination of mimetic peptides such as: Argireline, SNAP-8 and Leuphasyl and other ingredients like Hyaluronic Acid and Retinol, has a specific effect smoothing the fine lines, as well as, it helps the skin to have a smoother, better, and more elastic skin look. The formula includes active ingredients of tested efficacy, all of them act together over the main causes of the first signs of aging. Botopase has a similar effect to botulinum (without any side effects), which is the relax of facial muscles and fibroblasts alongside the filling, anti-oxidizing and nourishing effects the other ingredients provided.

MESOTECH® EASYCELL

Fighting cellulite - Four action in one product

STRONG FORMULA: FOUR ACTIONS VS CELLULITE

EFFECT: Cellulite of I, II, III Grade and thick adiposity.

INGREDIENS: Diuretic (action on Lipo-Edema) through Cynara, Mannitol and Hamamelids. - Restoring and reestablishing Micro Circulation through Coumarin and Rutin. - Lipolysis Action in synergy among Caffeine, L-Carnitine and Taurine. - Restructuring and improving skin firmness.

It acts in 4 stages:

It has a de-infiltrating effect on choked tissues. It restores effective local micro-circulation by opening the spasmed capillary sphincters. The caffeine activates the hydrolysis of the adipocyte triglycerides; reduced capillary permeability and improved microcirculatory parameters and ankle edema. The selenium and taurine restructure and protects the connective tissues. It acts in the biosynthesis of the elastin and combats calcification of the connective fibers.

TREATMENT: 1x week in 7 weeks; 7-10 treatments; 2 ml Easycell: 8 ml sterile water.

IMPORTANT: Treatment is performed 6-13 mm deep and the maximum dose is 2 ml; no treatment for patients with cardiovascular disease.

MESOTECH® BIO STRECH

Regenerates the skin and stimulates the healing process, Helps prevent & repair stretch marks

EFFECT: Bio-STRETCH contains several active ingredients clinically proven to help prevent and repair stretch marks by increasing collagen and elastin formation

INGREDIENS : Aqua distil, Aqua mar. Isot, Sodium Chondroitin Sulfate, hydrolyzed Collagen, Sodium Mannuronate Methylsilanol, Glucosamine Sulfate, Sodium Metabisulfite. Collagen is a protein that up about 25% of the protein in the human body. Collagen is present in normal skin. As dead skin cells are sloughed off, new cells replace them. As we age, our supply of collagen is diminished or degraded. This leads to laugh lines, wrinkles and other creases in the skin. Hydrolyzed collagen, HCP, (also known as purified gelatin and collagen hydrolysate) is collagen that has been enzymatically or chemically processed to make it more easily absorbed by the body. Collagen is the primary structural protein found in the connective tissues in the body. Hydrolyzed collagen consists of water-soluble peptides which are rich sources of the amino acids glycine, L-proline and L-hydroxyproline.

TREATMENT: 1 x 10 days. 10 treatments. 5 ml biostrech cocktail: 5 ml sterile water.

MESOTECH® BIO STRECH

Regenerates the skin and removes stretch marks (both white and red)

BIO STRECH stimulates healing and regeneration of the tissue.

Balance cellular turn-over, lessens the scars and restores elasticity to the skin. Is effective on Stretch Marks and even Double Chin. When skin is stretched too rapidly, e.g. when pregnant, growth spurts, weight gain or muscle building, the subdermal collagen and elastin fiber-matrix can become damaged and dehydrated leaving visible marks or scars.

BIO STRECH contains several active ingredients clinically proven to help prevent and repair stretch marks by increasing collagen and elastin formation, firming the collagen matrix and rehydrating targeted areas with an undetectable molecular hydrating film.

BIO STRECH: 3 treatments at 10 days intervals

MESOTECH® BIOLISI

Decomposes fat on the body

BIOLISI has lipolytic action. The most fast and safe cocktail for Body Lipolysis. It improves the skin tones, moisturizes & strengthens the protective properties of the epidermis.

COMPOSITION: PPC 250 mg, Sodium deoxycholate 2.5% + L- carnitine 20%; Bioline has lipolytic action. L-carnitine promotes the utilization of fat cells and their use as a power source, after carrying out the hydrolysis of triglycerides free fatty acids transport into the mitochondria. It also improves the skin: tones, moisturizes, strengthens the protective properties of the epidermis.

FREQUENCY: Once in 15 days. **TOTAL SESSIONS:** 4-5

APPLICATION: It must be use as pure or with pharmaceutical water in 1:1 proportion. It's better to start with the mix formula and then increase the Biolisi quantity as per patient's condition.

IMPORTANT: Treatment is performed 6-13 mm deep and the area is sore, red and slightly elevated for 2-3 days after treatment.

Decomposes fat on the body

Biolisi: 6 treatments

Biolisi: Only suitable for the body (not the face)

Biolisi: treatment 6-15 mm deep

MESOTECH® SKINESSE - Dark spot remover

A complete formula that contains all active ingredients that work in synergy. Treatment with Skinesses is quick and visible from the first treatment.

VISIBLE RESULT FROM THE FIRST SESSION

THE MOST EFFECTIVE AND INNOVATIVE STERILE MESO-COCKTAILS FOR HYPERPIGMENTATIONS

AREA: Pigment spots (after pregnancy or sun damage) and pigment changes due to age.

COMPOSITION:

SKINESSE CONTAINS NATURAL INGREDIENTS: Nodules (symbiozomes). Similar structure like Hemoglobin, in humans acts as detoxifier of free radicals. Isoflavones (Pueraria) act as antioxidant & very stable in water solutions. Albatin stabilizes DOPachrome and inhibits the enzymatic activity of the DOPachrome tautomerase (TRP-2). Glutathione reduces the intermediates of the melanin and form a complex with copper to reduces dopaquinone to DOPA. Alpha Kudzu root arbutin inhibits the production of melanin.

TOTAL SESSIONS: 4-6 Once each 7-10 days.

APPLICATION: Inject 0.2 to 0.3 ml of sterile meso-cocktails at each spot or penetrate with derma roller or dermafix.

MESOTECH® SKINESSE

A complete formula that contains all active ingredients that work in synergy. Treatment with Skinesses is quick and visible from the first treatment.

SKINESSE is the most effective and innovative sterile meso-cocktails for the hyperpigmentations, melasma, sun damage, age spots, discolorations, acne marks.

SKINESSE contains a complete formula thanks its active ingredients that works in synergy. The Skinesses action is fast and visible from the first session.

- Kudzu root nodules (symbiozomes). Similar structure to Hemoglobin in humans: acts as detoxifier of free radicals skin lightener active.
- Isoflavones (Pueraria) antioxidant properties. It is not cytotoxic and is very stable in water solutions.
- Albatin stabilizes DOPAchrome and inhibits the enzymatic activity of the DOPAchrome tautomerize (TRP-2).
- Glutathione reduces the interme.

SKINESSE: Results after only 1 treatment

MESOTECH® MESOTHERAPY

Since 2008, Mesotech has developed exclusive meso cocktails ready for use, used in more then 3,000,000 treatments worldwide.
