

PMU-line®

Permanent Makeup Products

the upcoming worldwide leading PMU brand

Distributor and Partner benefits

Dear professionals,

A very warm welcome to PMU-Line® Products and Academy.

The PMU-line® concept has been established especially for the professional with the Highest Quality Products. Absolutely no compromises have been made at any stage in the selection of raw materials and the production process to deliver 'Best in Class'.

Our mission is to deliver a quality product on all parameters.

The definition of a quality product:

The correct use of the purest raw materials in combination with the experience of biochemists, doctors and cosmetic tattoo artists - is precisely the path to the development of a quality product that leads to optimum treatment results

EVERYTHING matters when you create a pigment, a digital device, a needle, and aftercare products. The consummate professional will, from the first touch, sense a truly good product. The product which makes the treatment run smoothly and quick and when the skin gives the best response.

Permanent makeup is quite a huge decision for a consumer – and there is no doubt in how much responsibility the PMU-artist carries on his/her shoulders.

That is why the products to be used for the PMU procedure should be unquestionable – they should be perfect.

All the talented PMU-artists, beauticians, Lash & Brow stylists, and academies around the world are demanding a revolutionary

product line that takes the industry to a new level. Well, here it is! You are in exactly the RIGHT place – we unite quality products with good workmanship, giving an individuality and dignity to all our products.

Our success is measured only by your success. We strive for continuous improvement and a passion for producing the very best products available anywhere.

We hope to impress you and keep you inspired!

Aleksandra Kjaesfeldt
CEO/Founder

"Every job is a self-portrait of the person who did it. Autograph your work with excellence!"

PERMANENT MAKEUP PIGMENTS

PIGMENT CATEGORIES

Before choosing a supplier of pigments, it is crucial to confirm the quality of the products. We therefore give all therapists the opportunity to test our pigment samples before ordering them in normal size (5 ml). We will be happy to explain the essential aspects that are needed when ordering pigments. Contact us to hear more.
Find the pigments you want in the category overview below, divided by application, or scroll down to see all pigments at the bottom of the page.

ABOUT US

OUR MISSION IS TO IMPROVE THE QUALITY OF PERMANENT MAKEUP

In our opinion, far too many dubious results are delivered within permanent makeup, and we want to do something about it. Therefore, we offer both basic training and special courses in all branches of permanent makeup, as well as equipment and accessories to perform permanent makeup treatments of the absolute highest quality.

We are the founders and worldwide distributor of PMU-line products developed and produced in Europe.

In our webshop you will find a collection of all the equipment, products and accessories that you as a professional permanent makeup artist need, in order to perform your treatments in absolute the best quality.

A PART OF DERMATECH-GROUP

PMU-line is a brand under Dermatech-Group, which is a collection of brandt that offer training, pigments and accessories for virtually all types of beautifying treatments.

PMU-LINE'S PIGMENTS COMPLY WITH ALL THE NEW RULES (REACH)

PMU-line[®] pigments is of excellent quality!

Our partner, a recognized European medical laboratory, has been the pioneer in the production of Permanent Makeup pigments and is to produce medical and specially designed pigments for several uses that are guaranteed to the first laboratory be sterile and also approved for ALL kinds of micropigmentations (including eye color and gums).

Who uses PMU-line's approved pigments?

PMU-line's pigments are used all over the world by:
PMU artists and cosmetic tattoo artists, PMU academies
and schools, several Danish hospitals (Plastic surgery
departments), private hospitals and many more.

For each of the PMU-line's pigments, there is a detailed
certificate (data sheet) of 10 pages and in all languages,
as well as the statutory instruction on the use of the
pigment.

Our pigments are also marked as prescribed by the new
legislation, which is also controlled by the Danish Safety
Technology Authority.

You are obliged to use chemicals only in the manner and
under the conditions described in the safety data sheet
from your supplier.
